

You have a

mindset?

LMU EC Accelerator alumni startup looks for

Business Developer (f/m/d)

to join in accelerating our cutting-edge medical AI software.

You are interested in DeepTech and HealthCare? Join as intern, working student or write your master thesis!

We combine advanced medical imaging with modern AI algorithms and big data analytics to reshape the way physicians diagnose and treat patients. Therefore, we look for a strategist, entrepreneur and business developer to develop and directly support our CEO in decision-making.

What you need:

- Motivated and willingness to dive deep into diverse and unfamiliar topics
- Strong interest in entrepreneurship, consultancy and medical domain
- Excellent university track record + intern/working student experience
- At least final year of undergraduate studies
- Capacity for intern or working student position
- High proficiency in spoken and written German and English
